RACCONTARE E SPIEGARE I CAMBIAMENTI È SEMPRE MOLTO DIFFICILE: NOI LO ABBIAMO AFFIDATO A QUESTO NUOVO CATALOGO, CHE IN REALTÀ VUOLE ESSERE UN LIBRO ATTRAVERSO IL QUALE L'AZIENDA SI MOSTRA, MOSTRA I SUOI PRODOTTI - NUOVI E NON - MOSTRA LA SUA FILOSOFIA.

IL TEMPO È PASSATO ANCHE PER GALASSIA, CHE DA PICCOLA AZIENDA PRODUTTRICE DI PIATTI DOCCIA, È OGGI UNA DELLE AZIENDE DI RIFERIMENTO DEL SETTORE, RISULTATO OTTENUTO PERCHÉ ABBIAMO DA SEMPRE CREDUTO IN TRE PRINCIPI: NEL VALORE DEL NOSTRO PRODOTTO CHE NON ABBIAMO MAI CONSIDERATO COME IL RISULTATO DELLA TRASFORMAZIONE DI MATERIE PRIME, MA COME UNA SINTESI DEI VALORI IN CUI CI RICONOSCIAMO E CHE CARATTERIZZANO IL DESIGN GALASSIA; NELL'IMPORTANZA DELL'AMBIENTE IN CUI GALASSIA È RADICATA E NEL QUALE OPERA, LEGATA ALLA TRADIZIONE CERAMICA DELLA ZONA, ATTENTA ALLE ESIGENZE CHE QUESTA ESPRIME; ALLE PERSONE IN QUANTO CONVINTI CHE SONO PROPRIO QUESTE A RENDER FORTI LE AZIENDE, E PER TALE MOTIVO GALASSIA HA FATTO DEI SUOI COLLABORATORI E DIPENDENTI UNA RISORSA IMPORTANTISSIMA, CERCANDO DI COINVOLGERE OGNI SINGOLO ADDETTO NELLA CONDIVISIONE DEGLI OBIETTIVI E DEI RISULTATI.

QUESTO PICCOLO GRANDE RISULTATO È RACCONTATO NELLE PAGINE CHE SEGUONO: C'È UNA STORIA IN OGNI FOTO, C'È IL LAVORO DI TANTE PERSONE DIVERSE, C'È IL FRUTTO DI SCELTE RISCHIOSE, A VOLTE SBALIATE, C'È LA PASSIONE DI CHI HA CREDUTO IN UNA SFIDA. E, SE SFOGLIANDO QUESTO LIBRO, SE GUARDANDO QUESTE IMMAGINI, SENTIRETE UN'EMOZIONE, SARÀ UN ALTRO SUCCESSO PER GALASSIA.

*It's always very difficult to explain the changes, so we have entrusted this task to the new catalogue, a book through which the Company shows itself, shows its products, - new and existing – and its philosophy. Over time Galassia has evolved from a small shower-tray manufacturer to what is now, one of the reference company's in its sector. This is a result of our belief in three key principles from the beginning:- the value of our products, that we have never considered as just the result of the transformation of raw-materials, but as a synthesis of the values in which we recognize ourselves and that characterize Galassia's design - the importance of the territory where Galassia took roots and has been working ever since, an area dedicated to ceramic tradition - the value of our people! Galassia is convinced that it is the people that gives the organisation its strength. For that reason Galassia considers its collaborators and employees a very important resource, trying to involve each single person in sharing our targets and results.*

*The result of our commitment is narrated in the following pages: there is a story in each photo. The work of many people, the result of risky choices, sometimes wrong, the passion of the people who have believed in this challenge. And if, after turning over the pages of this book, after looking at these pictures, you feel any emotion, that will be another of Galassia's goals achieved.*

Contar y explicar los cambios es siempre muy complicado: nosotros lo hemos confiado a este nuevo catálogo, que en realidad pretende ser un libro a través del cual la empresa se muestra, muestra sus productos-nuevos o no- y muestra su filosofía.

El tiempo ha pasado también para Galassia, que de ser una pequeña empresa productora de platos de ducha, es hoy una de las empresas de referencia del sector, resultado obtenido porque hemos creído, desde siempre, en tres principios: 1.-en el valor de nuestro producto, puesto que no lo hemos considerado nunca como el resultado de la transformación de materias primas, sino como una síntesis de los valores en los que nos reconocemos y que caracterizan el diseño Galassia; 2.-en la importancia del ambiente en el cual Galassia esta situada y en el que opera, unida a la tradición cerámica de la zona, y siempre atenta a las exigencias que ésta expime; 3.-a las personas, en cuanto estamos convencidos que son ellas quienes hacen fuerte a la empresa, y por tal motivo Galassia ha hecho de sus colaboradores y empleados un equipo importantísimo, consiguiendo involucrar a cada uno individualmente en la consecución de los objetivos y los resultados.

Este pequeño gran resultado se resume en las páginas siguientes: hay una historia en cada foto, el trabajo de tantas personas diferentes, el fruto de decisiones de riesgo, a veces equivocadas, y sobre todo está la pasión de los que hemos creído en un reto. Y si revisando este libro, si observando estas imágenes, sentís una emoción, será un éxito para Galassia.

lifestyle

L'accostamento sapiente dei materiali, il rapporto tra la purezza della ceramica e il calore del legno, tra i riflessi del cristallo e le texture delle fibre naturali, rappresentano la sintesi equilibrata di una personale rilettura dell'ambiente bagno. Il lifestyle Galassia nasce appunto come una fusione di valori che prendono vita in un luogo seducente e intimo; uno spazio essenziale di volumi disegnati dalla luce e di dettagli armoniosamente in relazione, divenuta lo sfondo per un'esperienza sensoriale unica.

*The skilful matching of the materials - the balance between the pureness of the ceramics - the warmth of the wood - the reflections of the glass and the textures of the natural fibres create the perfect synthesis of a personal re-interpretation of the bathroom space. Galassia Lifestyle has been precisely thought out as a fusion of values that take shape in a seductive and intimate place. The essential space of volumes designed by the light and the details harmoniously linked, become the setting of a unique, sensorial experience.*

La yuxtaposición sabia de los materiales, la relación entre la pureza de la cerámica y el calor de la madera, entre el reflejo del cristal y las texturas de las fibras naturales, representan la síntesis equilibrada de una personal reinterpretación del ambiente del baño. El lifestyle Galassia nace como una fusión de valores que toman vida en un lugar seductor e intimo; un espacio esencial de volumen, diseñado desde la luz y desde el detalle, armoniosamente relacionados, que se convierte como trasfondo en una experiencia sensorial y única.

La ceramica è conosciuta fin dall'antichità, basti pensare che i primi manufatti risalgono al neolitico. E' stata sicuramente tra le prime espressioni "creative" dell'uomo e la componente manuale, nonostante il trascorrere dei millenni, è ancora una presenza forte ed importante.

Galassia è un'azienda che ha compreso a pieno l'importanza dell'innovazione nel processo creativo e produttivo. L'inserimento di nuove tecnologie produttive, dalla creazione di stampi e prototipi, alla cottura e alla movimentazione dei pezzi finiti (prototipatore CAD/CAM, forni di cottura completamente automatizzati, azzeratori di peso, etc...) hanno permesso alla nostra azienda di velocizzare - quasi dimezzare - i tempi di lavorazione. Tuttavia l'applicazione di queste non ha eliminato la presenza umana, che ha ancora una parte attiva e preziosa in tutti i processi, alla base del successo e della qualità del prodotto Galassia.

Questa è la magia, la poesia della ceramica: connubio tra tradizione e innovazione, la complementarietà tra sapere antico e innovazione tecnologica.

*The use of ceramics has been known since the ancient times; it is sufficient to think that the first manufactured articles date back to the Neolithic age.*

*It has surely been among the first "creative" expressions of man and the manual component, notwithstanding the passing of the millennia, this is still a strong and important presence.*

*Galassia is a firm that has fully understood the importance of the innovation in the creative and productive process. The introduction of technologies, moulds and prototypes, the firing and the moving of the finished pieces, (prototype machine CAD/CAM, firing kilns completely automated, weight zero-setting control) have enabled us to streamline our production. Nevertheless, these improvements have not eliminated the human resources that are still an active and precious presence in every process to reach the quality of the Galassia's product.*

*This is the magic, the poetry of ceramics – the mix between tradition and innovation, the link between the ancient knowledge and the technological innovation.*

La cerámica se conoce desde la antigüedad. Basta pensar que las primeras manufacturas comienzan en el neolítico. Ha estado seguramente entre las primeras expresiones "creativas" del hombre y el componente manual, no obstante el transcurrir de los milenios, tiene todavía una presencia fuerte e importante hoy en día.

Galassia es una empresa que ha entendido perfectamente la importancia de la innovación en el proceso creativo y productivo.

La introducción de nuevas tecnologías productivas, de la creación de diseños y prototipos, a la cocción y movimiento de las piezas acabadas (modelador CAD/CAM, hornos de cocción completamente automatizados, brazos robotizados de movimiento de peso, etc...) han permitido a nuestra empresa de acelerar y optimizar el tiempo de elaboración. Aún así la aplicación de éstas no ha eliminado la presencia humana, que tiene todavía una parte activa y preciosa en todo el proceso, pues supone la base del éxito y de la calidad del producto galassia.

Esta es la magia y la poesía de la cerámica: la unión entre tradición e innovación, la fusión entre el saber antiguo y la innovación tecnológica.

Sa02 può essere definito a pieno titolo "un classico Galassia". Ancora oggi è portavoce dei rinnovati valori e del lifestyle dell'azienda, e nel 2008 è l'attore principale della strategia comunicativa. Il suo design minimale ed il suo marcato carattere, gli hanno permesso di conseguire riconoscimenti prestigiosi come il "Design Plus" o la selezione per il Compasso d'Oro ADI. L'estrema riconoscibilità di Sa02 dettata dall'equilibrio tra rigore geometrico e superfici curve, da un design limpido e funzionale e da uno spirito essenziale ed elegante, lo rende un prodotto capace di inserirsi nelle più svariate situazioni architettoniche.

Sa02 can be defined as the "Galassia Classic". Still today it is the key-range of the renewed values and the lifestyle of the Company, and in 2008 it is still what we consider our figurehead. Its essential design and strong character have led this Collection to reach prestigious prizes such as the "Design Plus" and a nomination for the "Compasso d'Oro Adi". The strong personality of Sa02 obtained by the balance between severe geometry and curved surfaces, along with its clear functionality, makes it a product that can adapt to many design solutions.

SA02 puede ser definida en un titular como "un clásico galassia". Todavía hoy es portavoz de los renovados valores y del lifestyle de Galassia, pues durante el 2008 es el actor principal de la estrategia comunicativa.

Su diseño minimalista junto a su marcado carácter, le han permitido conseguir prestigiosos reconocimientos como el "design Plus" o la selección para el Compasso D'oro ADI.

Extremadamente reconocible, la Sa02 se caracteriza por el equilibrio entre el rigor geométrico y las superficies curvas, por un diseño limpio y funcional, y por un espíritu esencial y elegante, que lo convierte en un producto capaz de introducirse en las más variadas situaciones arquitectónicas.

Armonia ed ergonomia caratterizzano il design di KIMI. L'andamento sinuoso delle curve e l'intersezione delle geometrie danno vita ad un prodotto da una forte vitalità. Il programma, caratterizzato da un'estrema completezza della gamma di pezzi ceramici ed accessori, è completata da una mensola in ceramica, intesa come vero e proprio elemento d'arredo, che diventa modulare e rende l'intera serie estremamente versatile nella composizione degli ambienti.

Harmony and ergonomics are the peculiarities of the Kimi design. The sinuous lines of the profiles and the intersection of the geometries give life to a strongly vital product. This programme, characterized by a complete range of ceramics, includes, in particular, a ceramic shelf thought of as a real furnishings element that becomes modular and makes the entire collection greatly versatile in the composition of the bathroom space.

# designed on the water

Orbis è il progetto di una gamma di lavabi pensati per esaltare la purezza della ceramica ed il rapporto di quest'ultima con lo scorrere dell'acqua.

Dal disegno, basato sull'incontro delle figure geometriche primarie del cerchio e dell'ellisse, nasce una gamma completa e dal carattere marcato di lavabi da appoggio, sospesi, da semi-incasso e con colonna.

"working on the water-form" sta alla base del processo creativo da cui è nato questo progetto, il cui elemento di innovazione è rappresentato da una macropiletta in ceramica ispezionabile che conferisce complessità al rapporto tra i volumi e crea al contatto con l'acqua un piacevole effetto velo.

Orbis is characterized by a range of washbasins thought to demonstrate the relationship and purity of ceramics with flowing water. From the original design, the fusion of the primary geometrical figures of the circle and the ellipse, a complete range took life; its strong character is shown in the washbasins: laid-on, wall-hung, semi-recessed or with pedestal.

"Working on the water form" is the motto of the creative process from which this project was born. Its innovative element is a ceramic macro-drain easy to remove that gives complexity to the relation of volumes, and creates "touching the water", a pleasant veil effect.

Arkè è il progetto con cui inizia la fruttuosa collaborazione tra Galassia e l'arch. Adolini. L'elemento iconico e tradizionale del catino, viene ristilizzato attraverso l'incontro di figure geometriche solide primarie. L'estrema razionalizzazione e geometrizzazione rendono Arkè un prodotto estremamente funzionale e moderno.

Il programma Arkè aggiunge alla completezza della gamma dei prodotti ceramici anche una serie di specchi e una collezione di accessori in acciaio.

Arké is the result and fruitful project that developed from the collaboration between Galassia and Arch. Adolini. A particular success of this project has been the re-styling through the link of primary and solid geometrical figures. The extreme rationalization and geometry make Arké become a product particularly functional and modern.

The Arké programme includes a complete range of ceramic products, but also mirrors and a collection of steel fittings.

Il progetto Mod è il tentativo, attraverso l'utilizzo del legno, di interpretare le moderne esigenze dell'ambiente bagno, creando un'armoniosa continuità tra gli spazi dell'abitare. Gli spessori importanti e le ampie superfici vogliono raccontare, attraverso essenze, venature e texture del legno, la loro eleganza e rigorosità. Mod è il progetto attento di un sistema di mobili nato per completare e accompagnare tutte le collezioni in ceramica di Galassia

*Mod is the effort, through the use of wood, to interpret the modern needs of the bathroom environment, creating a harmonious continuity between the living spaces. The solid thicknesses and the spacious surfaces show through the essences, grains and textures of the wood, their elegance and accuracy. Mod is the careful project of a furnishings system born to complete and suit the entire Galassia ceramic collections.*

Mod es un proyecto enfocado a la utilización de la madera como respuesta a las modernas exigencias del ambiente del baño, creando una armoniosa continuidad con los espacios del hogar.

Sus notables espesores y amplias superficies, justifican a través de la esencia, vetas y texturas de la madera, su elegancia y solidez. Mod es el atento proyecto de mobiliario nacido para completar y acompañar todas las colecciones de cerámica Galassia.

I mobili della collezione **MOD** sono realizzati con pannelli di legno listellare interamente rivestiti in rovere. Tutti gli articoli illustrati nel presente catalogo sono disponibili in due finiture: Rovere e Wengè. La finitura, ottenuta con una speciale vernice, permette di mantenere intatte le porosità del legno, rendendo estremamente chiara alla vista e al tatto la venatura del rovere. I cassetti Wurth, a uscita totale, sono movimentati con tecnologia "SOFT CLOSE" a chiusura rallentata. La maniglia, unica per tutti i modelli, è realizzata in alluminio anodizzato.

The furniture of the **MOD** Collection is made of planking wooden panels entirely oaken coated. All the products shown in this catalogue are available in two finishings: Oak and Wengé. The finishing, result of a special varnish, makes the porosity of the wood remain intact, so that the grain of the oak appears extremely neat to the sight and touch. The full extension Wurth drawers work with "SOFT CLOSE" technology. The handle, the same for all the models, is made of anodized aluminium.

Los muebles de la colección **MOD** están realizados con listones de madera y enteramente revestidos en roble. Todos los artículos del presente catálogo están disponibles en dos acabados: Roble y Wengué. El acabado, obtenido con un barniz especial, permite mantener intacta la porosidad de la madera, representando con extrema claridad a la vista y al tacto la veta del roble. Los cajones Wurth, con salida total, se deslizan con tecnología "SOFT CLOSE" de cierre ralentizado. El tirador, único para todos los modelos, está realizado en aluminio anodizado.

Il vasto programma, che comprende lavabi e sanitari di differenti dimensioni e tipologie, rende M2 un prodotto adatto ad ogni ambiente dell'architettura contemporanea, dai loft a spazi di dimensioni molto ristrette, dai bagni più ampi a quelli più intimi e quotidiani. M2 è infatti il frutto di un intenso lavoro di sintesi progettuale e di ricerca, volto a portare comfort anche in ambienti di piccole dimensioni, per venire incontro alle nuove realtà abitative.

The large range, including washbasins and sanitary-wares of many sizes and shapes, makes M2 be a product suitable for every kind of bathroom, perfect for big or very compromised spaces.

In fact, M2 is the result of a lot of hard work in research and design desired by today's market.

El amplio programa, compuesto por lavabos y sanitarios de diferentes dimensiones y tipologías, hacen de M2 un producto adaptado a cada ambiente de arquitectura contemporánea, desde lofts o espacios con dimensiones muy reducidas a baños amplios, y de los más íntimos a los más cotidianos...

M2 es, en efecto, el fruto de una labor de síntesis, proyecto e investigación, dirigido a aportar confort incluso en ambientes de pequeñas dimensiones, que sale al encuentro de nuevas realidades habitables.

• I prodotti contrassegnati sono destinati all'appoggio dei lavabi.  
The marked products are suitable to arrange the washbasins.  
Los productos señalados están destinados al apoyo de los lavabos.

#### NOTE:

\_ Galassia non effettua fori lavabo e rubinetteria sui prodotti, salvo specifiche richieste che andranno valutate da parte dell'azienda.

\_ Galassia does not make holes for the instalment of washbasins and faucets on the furniture except for special requests to be considered from time to time by the Company.

\_ Galassia no efectúa orificios para lavabos y griferías en los muebles, salvo petición específica en cuyo caso se evaluará.

\_ Nelle configurazioni a terra dei prodotti, su richiesta, sono previsti dei supporti per rialzare il mobile.

\_ It is possible to request special supports to raise the furniture from the floor.

\_ En el mobiliario de apoyo sobre suelo, bajo petición, se podrá suministrar con soportes para elevar el mueble.

\_ Nelle tre versioni del mobile contenitore d'appoggio (art. 5254, 5255, 5256) non è possibile l'inserimento del cassetto free (art. 5266) in corrispondenza del sifone.

\_ For the three models of the box cabinet laid-on (art. 5254-5255-5256) it is not possible to insert the drawer "Free" (art. 5266) because of the siphon.

\_ En las tres versiones del mueble contenedor de apoyo (art. 5254, 5255, 5256) no será posible la introducción del contenedor simple (art. 5266) en la zona del sifón.
